PRODUCT SPECIFICATION

Why did we develop it?	To cook pizza anywhere! Tread heros portability in the pizza oven category by enabling our consumers to easily take the oven to friends homes, the park, beach or tailgating at your local football game.
Target Market	Modern explorer - People focused on car camping, adventure. Looking for intimate experiences that offer an aspirational life style. Tail Gating - This consumer is feeding their tribe at football games, music festivals or after long day on the slopes. They're looking for convenience and way to socialise. Outdoors Provider - This consumer is looking to enrich their family routine with trips to the park or friends' homes. This consumer wants practical design.
What makes this product distinct?	<ul style="list-style-type: none">• Carry handles allow you to share the load with a friend or get a good grip with two hands, the multiple ways of carrying the oven allows you to get from the car to your destination with ease.• Tread is 25% lighter than Rocbox or Arc making it perfect for a journey away from home.• Thermometer in the oven to measure the air temperature.• Electric ignition reducing the risk of miss fire from the gas burner.• 12" pizza capacity with the lateral gas burner to enable consumers to see easily inside the oven and gauge how it is cooking.
